

PATIO	
Seasonality	Mid Season
Fruit Weight	1-2 ounces
Vine Type(Fruit Bearing)	Semi-Determinate
Time Maturity	70 days
Location	Full Sun
Height	26-36 inches
Spacing	18 inches
Type	Compact
Disease Resistance code	A, V, St, FF
Genetic type	Hybrid
Comments: The perfect tomato for the container gardener. This variety does not need all the space of a garden. You can expect up to 50 tomatoes on every plant, and these bright red, smooth-skinned fruits weigh between 3 and 4 ounces each. They are firm and crack-resistant, with good uniform coloring and terrific juicy-sweet taste.	

Some tomato cultivars will be marked with disease resistance codes, signifying that the plant is immune to a certain disease shown below:

- **A** — [Alternaria stem canker](#)
- **F** — [Fusarium wilt](#)
- **FF** — [Fusarium](#) races 1 and 2
- **FFF** — [Fusarium](#) races 1, 2 and 3
- **N** — [Nematodes](#)
- **T** — [Tobacco mosaic virus](#)
- **St** — [Stemphylium](#) gray leaf spot
- **V** — [Verticillium wilt](#)
